SUMMARY

CS undergrad with hands-on experience in software development, building AI-powered full-stack web apps and competitive frontend projects. Solved 300+ LeetCode problems with a track record of shipping real products across web and AI domains. Eager to contribute in a collaborative engineering environment.

EDUCATION

CMR Engineering College CGPA : 8.67	2023 – 2027
Saahithi Junior College Intermediate(MPC) Yellandu Percentage : 98.3%	2021 – 2023
Sri Saraswati Vidyalayam SSC Yellandu Percentage : 100%	2020 – 2021

SKILLS

Languages	Java, Python, JavaScript, HTML5, CSS3
Libraries / Frameworks	React, Node.js, Express.js, GSAP
Tools & Databases	Git, Figma, Excel, Power Bi, MySQL, MongoDB
AI & APIs	Generative AI fundamentals, Gemini API, Prompt Engineering
Core CS Concepts	Data Structures & Algorithms, OOP, REST APIs, Version Control

PROJECTS

Meridian– AI-Powered Career Counseling Platform | Node.js, Express, JavaScript, GSAP

- Developed and Deployed a full-stack web app using RESTful API integration with Google Gemini to generate personalized career roadmaps from multi-step skills assessments.
- Designed an animation-rich UI with GSAP for a seamless, responsive experience.

GitHub : <https://git-it-ratan.github.io/meridian/>

CheckTheFit – AI Fashion Advisor Web App | HTML, CSS, JavaScript (In Progress)

- Developed a Gen Z-targeted fashion advisor with a clean magazine-inspired UI, custom typography, and responsive layout.

GitHub : <https://git-it-ratan.github.io/checkthefit/>

Hospital Management System | Java, MySQL

- Built a database-driven system to manage patient records, doctor information, and appointments.
- Implemented CRUD operations and relational database design.

Avisa – Deep Sea Expedition Website | HTML, CSS, JavaScript, GSAP

- Built for IIT Patna's frontend competition; conceptualized and led the full creative direction of an interactive ocean-depth storytelling experience.

GitHub : <https://git-it-ratan.github.io/avisa/>

CERTIFICATIONS

- Google Cloud Career Launchpad Generative AI Leader track
- ReactJS – Udemy
- AI Foundation – Hexart.in
